

About South Bank Corporation

South Bank Corporation owns and manages the 42 hectare South Bank precinct, which is located in the heart of Brisbane. The precinct comprises the Parklands, Little Stanley Street and Grey Street Boulevard.

The Corporation's vision is to create a world-class precinct, which adds value to the Queensland economy and positions Brisbane as a desirable tourist destination.

The primary responsibilities of the Corporation are to:

- promote, facilitate, carry out and control the development, disposal and management of land and other property within the corporation area; and
- achieve an appropriate balance between the corporation's commercial and non-commercial functions; and
- ensure the corporation area complements, rather than duplicates, other public use sites in the inner city Brisbane area; and
- provide for a diverse range of recreational, cultural and educational pursuits for local, regional and international visitors; and
- accommodate public events and entertainment that benefit the general community; and
- achieve excellence and innovation in the management of open space and park areas.
